How to print QR code for multiple objects

Use bulk actions to print QR codes for multiple objects at once.

1. Click Insight > Object schemas
2. Select an object schema.
3. Click Overview.
4. Click Objects.
5. Click the Bulk Actions icon at top-right and select Print QR Codes.
6. In the dialog box:
   a. Select a Size for the printed QR code.
   b. Click Print to generate the QR codes.
