

Insight Documentation - Version 8.5 Home

Important information about upgrading to Insight 8.5

The current release of Insight 8.5 contains important changes that will affect many Insight customers. Make sure you read our [preparation guide](#) about these changes before upgrading to Insight 8.5.

Getting Started

[Insight Overview](#)

[Insight Concepts](#)

[Installation and Upgrade Guide](#)

[Step-By-Step Instruction](#)

[Release Notes](#)

[Insight Glossary](#)

Insight User's Guide

The user's guide is for normal JIRA users. You are able to search for objects and connect JIRA issues to Insight objects.

[Object Search View](#)

[IQL - Insight Query Language](#)

[Create reports](#)

[Connect JIRA Issues to Insight Objects](#)

Insight Administrator's Guide

The admin guide is for people with either JIRA or Insight administrative rights.

[Global Settings](#)

[Create Object Schema](#)

[Manage Insight Custom Fields](#)

[Integrate with JIRA Service Desk](#)

Insight 101

Get started by taking [this tutorial](#)

Insight Manager's Guide

The managers's guide is for people with either JIRA or Insight administrative rights or Insight managers rights. You are able to perform most operations.

[Import and Synchronization](#)

- [Connect to a CSV file](#)
- [Connect to a JSON file](#)
- [Connect to a Database](#)
- [Connect to a LDAP Server](#)
- [Connect to any of our integrations](#)

[Insight Automation](#)

Insight Developer's Guide

[Insight - for developers](#)

- [Insight REST API](#)
- [Insight App Development](#)
- [Insight with Jira REST API](#)

Insight Roadmap

We share our roadmap for Insight for Jira Server [here](#)
